EASY SUBLI

Description Thermotransfer film with plain polyester backing, created for inkjet digital printing systems using sublimation based inks. It grants vibrant colours and a stunning thin design on the garment and permits to decorate cotton fabrics with sublimation prints.

Suitable textiles: cotton (all colors) and white/light coloured polyester or poly/cotton blend.

Usage

- Print and cut
- Weed the exceeding material
- Remove the print from the polyester backing by hand, then place it over the t-shirt.
- Cover the print with a sheet of silicon paper, oven paper or parchment paper.
- *In case of lettering prints you must use our TTD Special application tape to remove the print from support, then place it over the t-shirt.*
- Heat apply at the conditions shown on the right
- Remove the cover paper warm.
- *If you used our TTD Special application tape, remove it cold.*

Average thickness
220 microns

Suggested cutting settings

blade new at 45°
pressure 120 gf
speed 20 cm/sec

Transfer settings
15 seconds at 155°C
(311°F)
medium pressure
(3-4 bar)

Washing

Wait at least **24 hours** from application before washing.
Washing resistance up to **60°C**, best inside-out.
Do not use bleach or other aggressive chemical agents.
Not suitable for dry cleaning
Suitable for tumble dryer, synthetic cycle.

The product is REACH compliant
The product is certified Öko-Tex® Standard 100 Class I
