

P.S. STRETCH

Description PU plotter cut heat seal material with adhesive polyester backing. The material is thin, elastic, soft to the hand and blends well into the textiles, granting also an easy weeding and application. Specifically conceived for textiles featuring elastic qualities. The material is certified Öko-Tex® Standard 100 Class I.

Average film thickness : **90 micron**

Usage informations Due to the many different base materials available on the market, the following instructions are given as a guideline only :

Plotter settings (eg. with SUMMACUT D60 – ROLAND GX24)

Blade: **new at 45°**

Minimum cutting pressure: **50 gf**

Transfer setup

Temperature: **155 °C (310°F)**

Time: **15 seconds**

Pressure: **medium (3÷4 bar)**

Procedure

Mirror cut the material

Weed the exceeding material (for a quick and easier weeding, we suggest to place the cut material for a few seconds on a warm surface such as the plates, 60-70°)

Place the material on the garment with its polyester backing

Heat apply

Remove the support warm or cold
